

DOMINION TRANSMISSION, INC.

JOB DESCRIPTION

TITLE: Compressor Station Operator, Sr.

CODE NO.: 00401

GRADE: 007

REPORTS TO: As Assigned

DATE: August 15, 2010

RESPONSIBILITIES:

Perform all duties incidental to the operation and maintenance of compressor station main units, auxiliary and associated equipment and facilities as assigned.

ASSIGNED DUTIES:

1. Operate internal combustion engines, turbine engines, and related equipment and facilities used to pump and compress natural gas.
2. May report or direct the reporting of pressures and operating conditions to Gas Dispatcher and keep records or reports.
3. Change pressures and route gas as directed.
4. Operate all secondary equipment such as water pumps, generators, motors, and heating boilers, etc.
5. Make minor repairs to engines and equipment, assist in major overhauls as required, and keep tools and equipment in safe and proper working condition.
6. May operate and maintain boilers, performing incidental duties, such as maintaining correct water level, operating auxiliary equipment, checking safety valves, changing charts, etc.
7. May direct compressor station operators or other assigned employees in the performance of assigned duties.
8. May perform various maintenance duties such as painting, cleaning, polishing, caring for grounds, etc., as required.
9. Prepare records and reports as required.
10. May perform other duties as required in higher or lower classifications.
