

## **DOMINION TRANSMISSION INC.**

### **JOB DESCRIPTION**

**TITLE:** Engine Mechanic, Sr.

**CODE NO.:** 00613

**GRADE:** 010

**REPORTS TO:** As Assigned

**DATE:** August 15, 2010

#### **RESPONSIBILITIES:**

Perform the more complex duties required in the installation, testing, maintenance, and repair of compressor station main units, auxiliary and miscellaneous equipment, utilizing machine and various other power tools and equipment, hand tools, measuring devices, etc.

#### **ASSIGNED DUTIES:**

1. Erect and test internal combustion engines of rotary, turbine, and reciprocating type and auxiliary equipment at compressor stations.
2. Make major and minor repairs to engines and auxiliary equipment, utilizing machine and various other power tools and equipment, hand tools, and measuring devices, etc. as required to accomplish assigned duties.
3. Perform assigned duties at various locations as required.
4. Make minor repairs to equipment used in the performance of assigned duties, keeping the equipment and tools in safe and proper working condition.
5. Prepare records and reports as required.
6. May direct other assigned employees in the performance of duties relative to equipment repairs.
7. May perform other duties as required in higher or lower classifications.
8. Perform duties as required to verify, adjust, replace or install DOT related controls, shutdowns and relief valves. Adjust, replace, install and test unit shutdown end devices and shutdowns on engines, including all compressor unit station end devices and DOT and non-DOT required end device activities.
9. May use oxygen-acetylene equipment to heat or cut bearings, races, nuts, bolts, plate, etc., for the purpose of engine and auxiliary equipment repair.
